Nate Baker Tribute

Reflection

Lisa Temsey

Description:
My son suffered from a terrible loss this past year. One of his very best friends passed away from cancer. Prior to his passing, I was approached by his parents to develop a short video about Nate that would help to promote awareness of Adrenocortical Carcinoma. I used pictures and music to develop this video in IMovie. This video is very close to my heart. Nathan passed away in December 2012.

Impact:
This video was distributed on Facebook and we also attached it to the St. Jude’s Facebook page. I know that this video has brought awareness to our community is regards to this terrible disease. Many donations to Nathan were presented to research of this disease.

Intent:
This video will hopefully raise awareness of Adrenocortical Carcinoma. As awareness is raised we hope that donations for research will increase as well.
