Vocabulary Lesson Video

Reflection

Lisa Temsey

Description:

Students in the cohort for the Project Achieve grant will be taking a course entitled Scaffolding Language and Content Learning for English Learners. This course will be training students in the SIOP model of instruction for teaching English Language Learners. It is important to provide students with a good of example of a lesson taught using this method of instruction. This video was a lesson taught by a local teacher. The video was modified and effects were added to make it more meaningful for the students.

Impact:

This video showed students the exact steps that should be conducted when teaching a vocabulary lesson to English Language Learners. These students/teachers will be able to use the video to model their own instruction after.

Intent:

The students/teachers will refer back to the video if they become uncertain of the steps to follow in conducting a SIOP vocabulary lesson.
