Mini Project 1: Assignment Page (10 pts)

Due by the Sunday of Week 3, 12:00 midnight

After reading the first two units, you should create a web page named `mp1.html` and upload it to your Zipspace. After uploading your `mp1.html` page, you will need to post the correct URL to your `mp1.html` page in Submission DB: Mini Project 1 Discussion Form for peer review. The purpose of this web page is to have a central location for submission and review of assignments. In this assignment you will only create the basic template or structure for the web page, but the contents will change as the semester progresses.

If you are not quite sure how to use NotePad (PC) or TextWrangler (Mac) to create your first web page, please check out the guides for NotePad and TextWrangler in Content/Course Content/Mini Project 1 Folder.

I. Content of the Assignment

This `mp1.html` page should have at least the following. Click [http://gozips.uakron.edu/~tsai1/hypermedia/mp1.html](http://gozips.uakron.edu/~tsai1/hypermedia/mp1.html) to see a basic example.

- the title in the title bar (different from a heading) should be "[Your name goes here]'s Assignment Page"
- a paragraph about yourself or an interesting/funny quote (at least two or three sentences)
- a table to contain your picture or your introduction
- a list to show your future assignments
- text for links to the units and assignments due during the semester (see the example)
- anything else you want -- please make your page unique

II. How to Submit Your Assignments Page

After finishing your `mp1.html` page, you will need to:

- upload your `mp1.html` page to your Zipspace, and
- type your URL of your `mp1.html` page in the DB forum: “Submission DB: Mini Project 1”
### III. Evaluation

Your mp1.html page will be graded based on the following criteria.

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Possible Point</th>
<th>Your Point= Scale x %</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>Using the proper html structural tags</td>
<td>0.6</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Having the required content in your page</td>
<td>0.8</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Providing the correct URL to your mp1.html page</td>
<td>0.4</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Uploading the mp1.html file correctly to your Zipspace</td>
<td>0.1</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Total Points** 10

(Note:)
